

Vidya Vikas Mandal Pathrud's,
Shankarrao Patil Mahavidyalaya, Bhoom
Department of English

Bhoom is a Town in Bhoom Taluka in Osmanabad District of Maharashtra State, India. It belongs to Marathwada region. It belongs to Aurangabad Division. It is rural, drought area; the area is socially, economically backward. In this area Vidya Vikas Mandal Pathrud saw a seed of higher education with the intention and goal to educate the society for better tomorrow; this is a one kind of movement in this remote, isolated area where there is no source of education. With the starting of this college in Bhoom; the English Department established in the year 1993. The department has to face many challenges; the college is in rural area with rural background of the student; teaching English to those students is difficult process; another thing is creating interest for English learning is one more mile stone for the department.

The department found the scope in this critical situation; there is a scope to teach English language to the rural student; to introduce student with global world; to give student confidence, to encourage students, to inspire students to learn English language; there is a scope to introduce student with various opportunities etc. There is lot of scope to the department of English in this area. -

B) Importance of the English subject:

- English is a world language and it is a media to connect world
- It is an official language in India
- English is the key language and all knowledge is stored in this language
- This English Language opens various job opportunities in different fields
- English has two-part language and literature; language section teaches student perfect in official language and literature teaches humanities
- English Literature refers to the study of texts from around the world, written in the English language. By studying a degree in English Literature, you will learn how to analyze a multitude of texts and write clearly using several different styles.
- A degree in English language and literature is designed to get you reading books, analyzing theories, critiquing prose and verse, and taking a more critical ...
- Our English Language and Literature degree helps you develop an analytical approach to working.
- It is the language of science, aviation, computers, diplomacy and tourism.
- English language is very useful in our community and society because we use it in our daily lives.
- It helps us in communicating with others
- English helps in making a link between people of different regions and cultures
- Last but not least, it is the language of international communication, the media and the internet. Whether it is for professional or personal reasons, understanding the importance of English will help you reach your goals.

C) The Goal of the Department:

The Department of English aims to provide all students opportunities to enhance their communication, writing and critical thinking skill. In its teaching, the Department of English seeks to provide students with an education of the

highest quality in the English language, in literature written in English and in critical and creative writing, judiciously combining breadth with depth, tradition with contemporaneity.

The English Department acknowledges that the primary means to achieve intellectual development in these fields is through the teaching of specific writing skills (such as paragraph and essay formation, rhetorical strategies, and the mastery of grammatical competencies) and the critical reading of wide variety of texts, both print and non-print.

Goals:

- Students learn to understand a variety of literary texts through close reading, sharing cultural heritages, exploring historical periods, and making relevant connections to their own lives and to the world.
- Students develop academic literacy and proficiency in literary, expository, analytical, and argumentative reading and writing that will meet the demands of higher education.
- Students master all steps of the writing process to produce final drafts that are organized, concise, and logical.
- Students develop critical thinking skills in order to synthesize information by participating in whole class and group discussions, and through research, essay writing, and independent projects.
- Students improve communication skill through active engagement in a variety of activities that honor different learning styles.
- Students consistently engage in the learning process, both cooperatively and independently, in preparation for college, the workforce, and the global community.
