Green Policy of Institute

The Green Campus Policy of the college envisions a clean and Green Campus where environmentally friendly practices and education combine to promote sustainable and eco-friendly practices in the campus and beyond the campus. It also offers the institution an opportunity to take the lead in redefining its environmental culture through instilling environmental ethics among the students and staff.

As the future of human kind depends very much on our ability to change our lifestyles, we have to follow a low consumption pattern of living in terms of resources taken from the globe and return to a sustainable development path at the earliest climate around the world has started showing violent changes, destroying life and property and annihilating peaceful living conditions. With the willing opportunity and willing actions of every citizen wherever they are, Co-ordinated and directed actions should start and continue thereafter till a balancing stage is reached where moderate use of resources and balance positively to a sustainable nature. If we do not start action now, the situation may go out of control and when our grand children reach adulthood.

Life expectancy of those who survive will be much shorter than what we have now. The students who are in school and colleges now are to be the enlightened leaders of immediate tomorrow. Our national educational authorities, as in most developed countries, so we should insist that every student in our country should learn how damages to the environment occur and how to avoid such situations emphasizing more on possible remedial measures. Green education should start from schools and colleges and the insistence.

On Green Audit of higher education institutions on an annual basis, is to make students and staff well informed of the extent of ecological foot prints as well as one should concentrate to make his or her environs greener than before. The Green Policy of Shankarrao Patil Mahavidyalaya, Bhoom is prepared so that it can educate every stakeholder of the institution and every step is helpful to restoration leading to further flourishing of its green status.

Report on

Beyond the campus Environmental Promotional Activities

Conservation of environment is very sensitive issue in these days. Environment promotion and conservation is the basic policy adopted by our college. Our attempt is to create social and personal awareness about environment consciousness.

Following activities were undertaken by college.,

- 1) **Cleanliness Drive:** college students collected garbage from Bhoom S.T. Stand, Tahsil office, Bhoom., Allamprabhu Temple and disposed it properly, as one of the initiatives of cleanliness drive. During NSS residential Camp NSS volunteers cleaned the streets of the adopted village.
- 2) **Tree Plantation:** College has implemented leading initiatives of tree plantation in college campus and also adopted village during the residential camp. Tree plantation in the college campus has preserved and maintained by using drip water pipelines.
- 3) **Water management initiatives:** water is one of the important elements of life and it should be used carefully and with proper planning water management in our campus and tried to our level best for increasing water level by rain water harvesting.
